

**3.6.5 Application of Consumer-Owned Resources Serving Both Onsite Consumer Load and Other than Onsite Consumer Load**

If «Customer Name» designates a Consumer-Owned Resource to serve both Onsite Consumer Load and load other than Onsite Consumer Load, then «Customer Name» shall select either Option A or Option B below.

Option A: «Customer Name» shall specify in section 7.3 of Exhibit A the maximum monthly and Diurnal amounts that the retail consumer plans to use to serve the Onsite Consumer Load. Whenever and to the extent that the Onsite Consumer Load is operating, «Customer Name» shall apply any output of the Consumer-Owned Resource to serve such Onsite Consumer Load prior to scheduling any remaining output of the Consumer-Owned Resource pursuant to section 3.6.4. Any power generated from such Consumer-Owned Resource greater than the maximum amounts specified in section 7.3 of Exhibit A shall be applied to load other than Onsite Consumer Load in accordance with section 3.6.4.

Option B: «Customer Name» shall specify the maximum monthly and Diurnal amounts of the Onsite Consumer Load of the consumer that is to be served with Firm Requirements Power. «Customer Name» shall serve any amounts of Onsite Consumer Load of the consumer in excess of such specified amounts with power generated by the Consumer-Owned Resource or with power other than Firm Requirements Power. Any power generated from such Consumer-Owned Resource greater than needed to meet the requirements of this Option B shall be applied to load other than Onsite Consumer Load in accordance with section 3.6.4.
